

GREENLIGHT UNIVERSITY

APPROVED PROGRAM OFFERINGS FOR CURRENT AND FUTURE STUDIES SUMMARY UNIVERSITY AND PROGRAM DETAILS

1. INTRODUCTION

The strength of any academic program is in its competitiveness and ability to address issues that give students a hold on the cutting edge and prepares them for the right industry. Here at Greenlight we deliver more than that as our bachelors programs have two or more majors giving students an opportunity to gain competitive advantage and to widen their possibilities in industry penetration. Greenlight University for what it stands for in its mission and mandate is poised to offer equal entry access and affordable quality education.

Each degree is characteristic of program name, code, description, courses, national qualification level, credits of the program, assessment methods. Each degree is subjected to the same academic standards that define all the courses including all ethical procedures, outcomes, objectives and entrance requirements. Students will be able to complete a number of honors and masters degrees in one year.

Our programs are unique in many aspects and our academic distance learning system puts no pressure on students. In all our programs, we have considered the regional and international standards and we have even gone beyond to apprehend the future knowing very well that a lot of things will not stay the same and our students don't have to start going back in order to go forward. At Greenlight University, you are guaranteed education without disturbance/delay provided you have met all requirements for the specific degree. You are welcome to study with us and partner with us later on.

2. ABOUT GREENLIGHT UNIVERSITY

Greenlight University is an independent private distance learning University with a Christian ethos offering government approved and accredited programs from Diploma to PhD level but mostly specialized in masters and Phd programs. It has an establishment first in Zambia and the UK. The UK establishment has more degree program offering than Zambia and its communication processes are managed by the UK system.

GREENLIGHT UNIVERSITY is locally approved, gazetted by the government of Zambia under the Ministry of Education to operate academic programs and to award four-year undergraduate programs, masters and PhDs.

Greenlight University is registered with the Higher Education Authority (HEA) under the Ministry of Higher Education (see www.hea.org.zm) to offer accredited programs in various fields.

Greenlight University is governed by a team of Board of Advisors composed of prominent Zambian and international leaders from the academic, government, and business communities.

Greenlight University has been given worldwide accreditation as an Institution approved to offer academic and professional degrees.

3. LEARNING TYPES/MODES AND STRUCTURE

NO	TYPE	DESCRIPTION
1	PURE DISTANCE	This type allows students to study at their own pace with minimum contact sessions but they receive materials electronically or hard copies and attend to course requirements as they progress.
2	BLOCK LEARNING	This is a second type of learning where students will be invited or lecturers to present the modules for a short period of time longer than 5 days but not more than 10 days of learning for specific times in a year.
3	COMPRESSED SEMESTER	This type involves reducing the semester period from 16 weeks to 9weeks. This means that in a year, students will spend 19weeks of study instead of the normal 32hours.
4	FASTRACK LEARNING	This type is a special track that allows students to complete studies much faster and earlier by aligning the studies to the needs of the students thereby adjusting the time table.
5	INDEPENDENT RESEARCH	This allows the students to study on their own fully and demonstrating the capacity to carry out sound work and using one's speed attend to the demands of the program.
6	ACTION LEARNING	This type allows learners in a particular academic program to apply field work and extract lessons using their own field as they work, while at work and as the process unfolds. It is learning associated to the place of work and the nature of work.

3. DEFINITION OF PROGRAMS AT GREENLIGHT UNIVERSITY

3.1 Bachelor's degree at Greenlight University?

The bachelor's degree is a four year undergraduate program in the field of interest that requires a person to have completed High School or have reached mature age entry to study the program. It is offered through distance and online study.

3.2 What is a Bachelors Honors Degree (BSc - HNRs)

This degree is understood differently in geographical academic circles where other refer to the degree as a variant of the undergraduate bachelor's degree containing a larger volume of material or a higher standard of study, or both, rather than an "ordinary", "general" or "pass" bachelor's degree. At Greenlight is a degree offered to students who do not equate their previous studies to a four year baccalaureate or simply those whose undergraduate degree was obtained in 3 years of study. Thus an honors degree at Greenlight is an independent postgraduate degree normally taken for one year adding already to 3 years or equivalent of 3 years to make it four year of study in the same area or related field of study. The meaning of an honors degree in South African Universities is the same way Greenlight treats its honors degree. The honors qualifies those with 3year bachelors now to progress to Masters.

3.3 What is a master's degree (MA/MSc)

The Master's degree is a graduate level program offered mainly in one year though some masters will take two years depending on the type in the field of interest that requires a person to have completed the undergraduate degree in a particular field and is offered through distance and online study.

3.4 Doctorate degree (PhD) at Greenlight University

Anyone who has obtained an MA/MSc degree is in principle eligible to proceed to a doctorate (PhD). The doctoral degree is the highest degree at philosophical and intellectual level where a student undertakes academic research and publishes the results in a dissertation which must then be defended in the presence of the committee for higher degree.
